

December 17, 2021

Dear Residents, Families, and Team Members of Bellaire at Devonshire,

With the holidays coming nearer the community remains vigilant to protect residents and team members from potential exposures to COVID-19 and its variants. We continue to follow the core principles of infection prevention. Mask adherence and immunization remain key to preventing and reducing serious illness caused by COVID-19. Bellaire at Devonshire recently contacted residents and family members for consent for the community pharmacy to administer COVID-19 booster doses to those in need of them. On December 20 a pharmacy clinic will occur to administer these doses to residents and team members as set by the FDA-approved requirements of vaccine manufacturers. If you have any concerns or questions about your or your loved one's vaccination status, please contact the community (304-760-5290) and speak with the Director of Health & Wellness April Bryant, RN.

I would like to welcome a new team member to our community. Emily Walker, LPN has joined us as the Director of Memory Care. She brings experienced and guiding care to the community's assisted living memory care neighborhood. Feel free to visit or call the community to speak with her for any questions or concerns about a loved one

Thank you for your continued support. There are no new changes regarding our COVID-19 community status or changes to our visitation guidelines. Please call us at 304-760-5290 if you need additional information. I will continue to keep you updated to date with regular community letters.

As always please follow our Facebook page and subscribe to our text news blast by texting "Devonshire" to 855-906-2913. We appreciate your ongoing support.

Please reach out to me with any questions or concerns.

Sincerely,

Tyler Holsclaw  
Associate Executive Director, Bellaire at Devonshire
