

March 25, 2022

Dear Residents, Families, Loved Ones and Friends of Bellaire at Devonshire,

I wanted to provide you with an update regarding our status at Bellaire at Devonshire. As of March 25, 2022, there are 6 confirmed resident cases & 13 confirmed team member cases of COVID-19. Ten cases remain in active status at this time, the other cases are no longer considered active. The family members of the residents who tested positive have been contacted and kept informed; and the team members who are in active status remain quarantined at home. The health and safety of our residents and team members is our highest priority.

Once a week, community-wide PCR testing will remain in effect and additional antigen testing for team member will be performed during the outbreak. We will be sure to keep you informed of additional testing results. If you are experiencing symptoms of COVID-19 or have had a recent known exposure, please practice social distancing, and take steps to protect prevent further spread. The community concierge can schedule virtual visits as needed. Also, masks are available for all visitors.

Group activities and communal dining will remain suspended. Our community COVID-19 guidelines call for increased social distancing measures during times of high transmission occurring within the community. After additional testing and reduction of active cases these measures will be lifted. Visitation and residents going out of the community will remain unaffected by the new outbreak. While it is not recommended, residents who are on transmission-based precautions can still receive visitors.

We will continue to communicate any updates to our residents and loved ones. If you have not already done so, please text the word "Devonshire" to (855) 906-2913 to receive community updates via text message. If you have any questions or concerns, please feel free to contact me, or any member of our Management Team. Thank you for your support as we continue to work through these difficult times!

Sincerely,

Tyler Holsclaw, Executive Director

Bellaire at Devonshire
